

Preventing Behaviour Problems With the Needs Focused Approach™

Systems and Strategies to Reduce & Prevent Behaviour Problems in Your Classroom

Attitude and Emotional Control

- Changing our attitudes – how to gain respect from challenging students
- How to stay calm and remain in control when it all goes wrong

Effective Communication

- Congruence and assertiveness – how to give instructions so that students follow them
- Eliminating confrontation – how to put an end to arguments and ‘answering back’

The power of encouragement and effective praise

- Making praise count – motivating students without relying on rewards

Highly engaging lessons

- Cooperative learning – how to structure lessons to minimise problems & maximise success
- Getting attention from the start – and keeping it

Positive student/teacher relationships

- The secret to classroom management success - fast-acting methods to build trust and rapport
- Maintaining and repairing relationships

Rules, routines & consistency

- Prevention is easier than cure - giving students a ‘success’ map to follow
- How to use routines to automate your classroom and eliminate “I don’t know what to do” responses

Responding to challenging behaviour

- Key responses – how to address misbehaviour swiftly and effectively

Putting it all together

- Q and A/discussion/sharing ideas
- Practice scenarios
